Course Description:

This is a 40-hr course that provides training in latent fingerprint location, development, and preservation. This course covers latent print development techniques including various powders, chemicals, dye stains, and photography. This course will discuss locating latent prints at the crime scene. This course is primarily hands-on and students will spend their time in a laboratory setting processing latent fingerprints.

Topics Covered:

- Superglue Fuming
- Colored Powders
- Fluorescent Powders
- Chemical Development
- Developing Bloody Prints
- Basic Pattern Recognition
- Photography

Who Should Attend:

- Crime Scene Investigators
- Forensic Technicians
- Criminalists
- Detectives
- Investigators
